

Megaphone

Post Animal

Call me on your megaphone
Tell me what you're thinking of
Listen close or you will never know
Call me on your megaphone
Tell me what you're looking for
Listen up it doesn't often show

There may never be a right way to ask
Just a feeling that you hope to unmask

Give yourself a chance, let it unfold
You are the one to show

Call me on your megaphone
Tell me what you're thinking of
Listen close or you will never know
Call me on your megaphone
Tell me what you're looking for
Listen up it doesn't often show

You never had a reason to ask
Just a feeling that you had to unpack

Take the chance to let it come and go
You are the one who knows

Give yourself a chance, let it unfold
You are the one to show

Soar through the sky
You can go really far
You can be what you want
Let me see who you are
When there's no one around and you feel all alone
Just call me on your megaphone

Call me on your megaphone
Tell me what you're thinking of
Call me on your megaphone
Tell me what you're thinking of
