

Hit This Hard

Post Malone

(I never felt that it would hit this hard)
(I never felt that it would hit this hard)

Don't do that, I tell you so
Don't overdose...Like no, no, no
Oh my god, what have you become?
The traces of you, no I can't see them
What have you become?
What have you turned to?
What have you taken?
Like someone hurt you
Yeah, drink that mixture
That shit gon' hit you
No, I can't fix you
No, no

Oh, yeah
I ran through, yeah
I feel the change in the air tonight
I saw myself in a different light

(I never felt that it would hit this hard) [x2]

I just keep running and running and running around
(I never felt that it would hit this hard)
The feeling is different instead when you wake on the ground
(I never felt that it would hit this hard)
I don't know who I was in and I don't know anymore
(I never felt that it would hit this hard)
In the city we singing we don't ever want to come down

Me and J take over and we way up
Now high above the the city of angels
Smoke a bog in the sky, pass the fuego
I already dropped something in the favor
When we came to the club cause they paid us
Take this shit, lemme see what you're made of
No sleep little mama, we gon' stay up
Vampires in the night in Las Vegas

Oh, yeah
I ran through, yeah
I feel the change in the air tonight
I saw myself in a different light

(I never felt that it would hit this hard) [x2]

I just keep running and running and running around
(I never felt that it would hit this hard)
The feeling is different instead when you wake on the ground
(I never felt that it would hit this hard)
I don't know who I was in and I don't know anymore
(I never felt that it would hit this hard)
In the city we singing we don't ever want to come down
