

How Can I Explain?

Potter Payper

There ain't nothin' like this freedom, how can I explain?
I feel so free, I'm gonna fly, I mean buy a plane
I'm free for you to need me, I'm comin' right away
It could be night or day, I'll always find the time to play

Free to get signed, shit, I mean start a label
Thirty-six floors up, white ash on my table
Now I'm free to make a living, God knows I'm grateful
And I'm due to make a killing, God knows I'm able
Right now, I'm just maintaining and I'm semi-stable
But I'm free to take you spa, let you get a facial
They ain't gotta ask, they know I'm with the play ball
'Cah just the other day I was ticking eight balls
I put that white girl on a break like Ross and Rachel
Now I'm free to separate, free to elevate
Get a peppered steak
I'm my own boss, I ain't ever late
I made it out the hood, I ain't ever safe
Or second place
Free to reconcile
I'm free to reconcile if you go the extra mile
And now you call me, I wonder who you used to dial
I'm taking care of shit, I wish my nan could see me now
I'm free to drop the top and blow it straight up to the clouds
If I G check him, I don't think it's gonna bounce
'Cause I'm free to make sure they're going straight to his crib
I'm free to come home and go straight to my fridge
And my neighbours are cool, they don't bait where I live
I really came from nothing, course they hate how I live
'Cause I'm free from that Hell, but I came from the pit
I'd really trade it all now to feel your face on my lips

There ain't nothin' like this freedom, how can I explain?
'Cause I don't even think you get me, let me try again
I'm on the A13, playing Purple Rain
And I'm free to make sure you never hurt again

Ain't no more, "Say hello to mum for me"
She lives comfortably, used to hold guns for me
I'm free from self doubt, who'd you help out?
I run these companies and still keep you company
I'm free to talk less, free to do more
My sisters wanna shop, I send 'em New York
They always used to tell me, "All in due course"
Now I'm free to play Nipsey in this blue Porsche
They take you for granted when you're clean hearted
But never be disheartened, finish how you started
Free to be creative, free to be an artist
Let's be equal partners, onto greener pastures
Let me clean my glasses, let me see the farthest
Tell 'em raise the invoice and I need it sharpish
You want all the answers, you want all the chances
All the pain I harness holding me up like a harness
There ain't nothin' like this freedom, how can I explain?
I told Muni in that cell, "Can we try escape?"
Free to not be a number, call me by my name
Now I'm free to run the game 'cah they ain't what they claim

Free champagne, I don't ever drink
But free to make memories, let's not reminisce
I'm too hit, I never miss
Still tryna make up for the deficit
So if I doubt you, I ain't giving you no benefits
There ain't nothin' like this freedom, every day's like an achievement
I know I give you gems, but I would never tell your secrets
I ain't got friends, I got family that's immediate
I just want everyone around me to be decent
Driven and ambitious and appreciating freedom
We're eating Pan-Asian and we're driving European
Free to put my trap phone in the museum
I felt like a gladiator in the Colosseum

There ain't nothin' like this freedom, how can I explain?
I feel so free, I'm gonna fly, I mean buy a plane
I'm free for you to need me, I'm coming right away
It could be night or day, I'll always find the time to play
I'm free to separate, free to elevate
Free to reconcile, go the extra mile
I'm on the A13, playing Purple Rain
And I'm free to make sure you never hurt again
