

## If Only

Potter Payper

If only you knew  
If only you knew how we grew, had to get me some food  
I had to make the shit move  
Shit if only you knew, shit if only you knew  
By myself moving loose like I need me some juice  
Shit if only you knew, so what you think we choose?  
To be poor, shit if only you knew  
What I made from that Q and that Q  
Put these clothes on my back, can't argue with that  
And don't watch what I do  
Shit if only you knew how I move to these yutes  
In their twos and they'd probably just beef me for views  
Or so they can tell man and look cool  
Probably blow every re-up on shoes  
But whatever keeps you amused, shit if only you knew  
How I run down this door, turn your wife to a ho  
The house to a bando, shit if only you knew what man know  
If only you knew, little fat white ASBO, used to trap with Marl  
o  
Used to run with Fat Mo, used to wear my bats low  
Used to be a jail cat, shit you know how that goes  
Every single time I'd have to ride it on my Jack Jones  
Shit if only you knew how I clocked the whole ting  
About to force my way in, two hands on your head  
I just came for the bread, skrr-skrr for the red  
One time and you're dead, shit if only you knew  
About this lifestyle I'm stuck in  
On sight when I buck him, free Money, free Chucky  
Free Abti, free Nutty, shit if only you knew  
I can't find this shit funny cause there's twenty more names  
And I smoke like an old-school train  
So no doubt there's probably like twenty in some change  
If only you knew
