Potter Payper

Midsummer murders, it's a epidemic
You reach a certain age and it just gets pathetic
Every track I'm on it's like an open letter
I lived it and I'm still in it tryna show you better
See we lost flex, 36, Lad and Bush
And even after all of that I need a push
And my CH killers lost Trizz and Grinner
And Muni's like my bruddah man, that's like my killy's killers
Remember we was banged up, eating noodle dinners
Gangsters got heart too, we ain't your usual killers
Breaking fast with Shivers at my bruddah Sicker's
Barakallahu fik cah all my bruddas with us
Gang gang it's all fictitious
You known dem all your life I bet that prick snitches
Catch a big bird I bet that bitch switches
Make suttin of yourself, that was his last wishes
You ain't gotta be the richest, just be the realest
Real like Jimmy, that's why I got him with me
Real like Bradley, that's my family
Real like Tera, that's my darg forever
Can't forget Skrillz, now we're rich forever
I was on the run at Bills, I never had a tenner

I define my era he made me remember
I define my era he made me remember

I need bullet proof, not no fake love
I need different mums, but the same blood
I need a bitch who will never change up
When it's time to settle down and give the game up
I see them all falling off, that's what the game does
I see all the fake love, that's what the fame does
They locked us in cages but couldn't tame us
I paint a picture but I never need a paintbrush
And I smile every time the rain comes
I said I smile every time the rain comes cah
I guess all's well that ends well
Man on fire, feeling like I'm Denzel
All this gun smoke that I inhale
But it's just weed smoke that I exhale
I ain't tryna get jail mail
I prayed 20 times in my court cell
I went up and I still never caught bail
But I still never lost faith
Cause out here, it's not safe you gotta tap your brakes
And every hoods got grass and grass has got snakes
So make sure you learn from your mistakes
And make sure you learn from my mixtapes
I said make sure you learn from your mistakes
And make sure you learn from my mixtapes
