

Multifaceted

Potter Payper

I never been a F boy, this ain't no forgery
Ain't no fraud in me or war in me, you're warnin' me?
They turnt bad, they must be drunk and disorderly
I see them off the internet and deal with 'em accordingly
Clean hearts always seem to be the poorest people
Your life's a movie, but nobody ever saw a sequel
When I die, don't cry, I need a whole cathedral
I think jealousy and greed's like the purest evil
Ten years I been rappin'
Six I was in the can, the whole ten I stayed trappin'
When they was false flaggin', I was getting shit crackin'
Even in jail, I was making shit happen
I shared the link with Money and Flex cah that's standard
Basic rider, I'll be lucky if I'm standard
I trapped out a cat's house like it was abandoned
Now I need a mansion and I need a expansion
Marilyn your Manson, still rockin' with the mandem and we're rollin'
All I see is me, I don't see no opponents
Every time I rap, it's like a walk of atonement
I talk about the shame and the life I'm condonin'
Man are talkin' in the hood 'bout some dough I still owe them
So I'ma still rap about this gun I still roll with
Talk about this weed that I'm back-to-back smokin'
We all in the streets, but I'm the one who brung the hope in
Me who kicked the door in, now they pay him like they owe him
Nothin' you can show him
Still frontline, their sideline like a throw-in, you dickhead
I got Richard money, get your Judy delivered
I still fight with my demons, pray I'll soon be delivered
I'm in love with my freedom, in my mental, I take beautiful pictures
I wanna tell you all about it, but you wouldn't listen
Some days, I'm one step away from a stupid decision
I'm in and out with a bag, I ain't losin' my rhythm
You don't want my opinion when the sky is your limit
You can stay in your feelings, I'm gonna chase me some millions
Make me a legacy, I got bricks for the buildin'
They just rappin' 'bout drillings and they killin' civilians
Somebody take a look at the children and heal them
I'm prayin' for my boys who got G's and appealed them
I knew your intentions before you revealed them
I never been a dumb boy, there ain't no fool in me
I'm a diamond geezer in and out my jewelry
It's like the studio's the gym and I'm the orderly
Every day, I'm doin' sets for the set, I pray you thought of me
Underground, underdog, underpaid, overworked
I'm a public servant, I bag it up and serve
Hope the feds don't observe cah them birds are absurd
How you still sellin' dark in the dirt?
This legacy I'm building, it's become a obsession
I made it out the streets, come and hear my rendition
You can't trick me out my freedom
I don't really need your features, so I don't want the splits if it ain't even
I know you judge me on a pretense
I'm submerged, you won't even get your feet wet
Every day, I'm makin' money I don't need yet
I'm on the M-way listenin' to Devilz Rejectz

I'm thinkin' 'bout my massive, I mean passive income
I used to run blocks, now I pay to spin some
Some days, I wake up, I can't believe the outcome
I'm in Hakkasan, but I don't eat the dim sum
And I don't eat the duck too, but tell them bring some
Nowadays I got choices like I licked a big one
Should I wear the pinky or my lightnin' link one?
Ah
