

My Aunty Gave Me Legal Aid

Potter Payper

God blessed me, so I shine through my darkest days
I'ma stand on this here, I can't be swayed
They know I got all the answers, but they're ten years late
God will send you situations just to test your faith
Not for love nor money, nah, I can't be changed
War with it, nah, I can't be tamed
On stage with a tint in my Carti' frames
Cah I shine so bright, but I can't be blamed
Alhamdulillah see a smile on my aunty's face
It's only been two days since you passed away
And when I think about you, it makes my heart beat strange
I'm drinkin' straight from this bottle till I can't see straight
t
I still bill it
How long you been shinin' in the shade? It's been a minute
I know the dark, I see him smoke, I see him pin it
You see this nine? It's not a joke, I wanna twin it
No excuses, with this rap, I'm exquisite
Explicit, twelve light in ten minutes
They'll be there, then text back, like, "Best wishes"
Tsch, they'll be there, then text back, like, "Best wishes"

God blessed me, so I shine on my darkest days
They're gonna say you changed when they stay the same
I'm tryna stand on business, really change the game
I know work ethic in a major way
My line was 24/7, like, way to save
'Member I was on remand, not a name to say
I got it crackin' in Jumu'ah, but I came to pray
I never came to play, I came up off an eighth of yay
Now my Day-Date's gold like this Ace of Spade
That's more free champagne I'll never drink
Just take that, I make sure that I'm someone that you think of
That's for all the times that we had to do a improv
This for all the people, their lives I'm tryna improve
I'm in it, win, lose
Shinin' in the shade, I still intrude
They know that I hang with the killers, and they sling food
Had a dream that they let me cook it live like Big Zuu
They know that I hang with the killers, and they sling food
I had a dream that they let me cook it live like Big Zuu
