Never Left

Potter Payper

5ive Music
Yo
Ah

Guess who's back like I never left?
Payper first, I ain't never been second best
I used to have empty pockets, not empty threats
It's a long time shit's been frying like eggy bread
Now these LV squares going check for check
I push B off-white, I'm fresh to death
Thirty-four for the brizzy, not a penny less
And it's deffo getting pressed if it went for less
See my bro, he done a ten, he got a decade left
And when he's chattin' to his mother he won't never stress
I never slept on a vio if I recollect
'Cah they clap for me like I work for the NHS
Never see me clout chasin' on the net
See me live in the flesh, I'll rise up the spesh
Make a big copper suttin' just bite out your chest
Are they mice? Are they men? They just try to pretend
I've got pride and honour, and I'll die for my friend
Got my bando kickin' like Ryu and Ken
I've got pride and honour, and I'll die for my friend
Got my bando kickin' like Ryu and Ken
I've got too much heart, I'm first in and last out
Ever since Tinie made 'Pass Out'
I've been makin' cats smoke till they pass out
Leave half the brick soft, peb half down
I ain't gotta send a text, this is our town
Ever since Tinie made 'Pass Out'
I've been makin' cats smoke till they pass out
I've been makin' cats smoke till they pass out
