

Never

Potter Payper

Hey, come here, sip ting
Like never have I ever
You know that game never have I ever?
Like, how you say like, never have I ever done somethin' and the person takes their drink

Never would I leave my darg on God
We can't sleep on a violation, got too much heart (Amen)
You been askin' 'bout us, must've heard we real bosses
I deserve this shit we put in when we flossin'
They gonna try but they can't take me down (Down)
We juggin', we be on the go (Yeah)
We the hood topic, tell 'em come around (Come around)
You wasn't with me on the road (On the road)

Never ever should you make a comment in the station
Never see your boy doin' well and get to hatin'
Never give up on your journey, trust in patiences, that's the basics
Never buy boots without the laces
Or sleep on violations
Never out of house speak on situations
And never tell a next man your wages
I don't care if you say you've known a man for ages
Shh, cah we talkin' 'bout papers
God said, "You should never ask twice for favours"
And I said, "From induction get your razors
And make your little shavers"
And never ever think that they forgot 'bout your behaviours
Never ever have they broke my sprit, I never wavered
I read a lot of books and I never skipped pages
I'm his and her favourite
Fuck COVID, I know clout's contagious
Cah I done seen man face down on pavement
Rules of engagement, never ever think that I won't rise to the occasion
Who's that grey don always in some gangster liaisons
Never ever, ever can I forget where I came from
That's where I got my pain from

Never would I leave my darg on God
We can't sleep on a violation, got too much heart (Amen)
You been askin' 'bout us, must've heard we real bosses
I deserve this shit we put in when we flossin'
They gonna try but they can't take me down (Down)
We juggin', we be on the go (Yeah)
We the hood topic, tell 'em come around (Come around)
You wasn't with me on the road (On the road)

Never have I ever lost myself
Never sold my soul or forgot myself
Might have blocked my blessin', but couldn't stop my wealth
Never could I snitch, I'd rather shot myself
I never make a man if I could hit the shot myself
Never not gone if I got the drop myself
I swear even if I tried I couldn't stop myself
That's crown court standin' in the dock myself
Never ever could I be rockin' with no Jerry Ella
So much ties I had to sever, shit, I never had a tenner

Never ever did I think you'd hate me just for doin' better
Never ever am I in a Wingstop gettin' lemon pepper
Rollin' with this little tekker
Turn me to a twenty wrecker
Never ever do I feel overwhelmed or under pressure
It's me versus me and no one's gonna come corrector
Blowin' up like Uncle Fester, blowin' on this ten scotty
Never ever could you see me wifey'in no dead thotty
Never could I ever, I'd be goin' out like Ted Bundy
Never could I ever spend money just to spend money
Shit, I need money just to send Muni

Never would I leave my darg on God
We can't sleep on a violation, got too much heart (Amen)
You been askin' 'bout us, must've heard we real bosses
I deserve this shit we put in when we flossin'
They gonna try but they can't take me down (Down)
We juggin', we be on the go (Yeah)
We the hood topic, tell 'em come around (Come around)
You wasn't with me on the road (On the road)
