Potter Payper

Same old PP, I can't lie  
I could never snitch blud and that's on my life  
I lost so many friends that I wish I died  
Nanny told me "don't go out there boy, it's cold outside"  
But I'm a giant in this ting, I'm Goliath in this ting  
I swear to God these boys are not my size  
Couldn't wear my shoes, couldn't hear my cry  
I'm a old school G, I'll make you shine my nine  
Ask Pabz, I've been at it since like '05  
Shit before then, somebody should've warned them  
Three wings and fries  
I stepped in looking like I done did this twice  
Street kings doing street things  
Real back in style P, you're just in time  
I bet they wish I let them slept this time  
I mean sleep this time, shit I eat shit and beat this nine  
My youngers' so eager, they want an eight-ball, not FIFA  
They wanna be the next top shooter  
Got a hammer and a corner in an Uber  
Shit, you know where the goons at  
Fuck your tunes, your tunes whack notorious  
I'm Frank White, it's obvious  
I trap white, endo and my blue mask  
I just got the brown juice, baby where's the Boost at?  
I rap and you rap but we can't be in the same room ahh  
Cause you chat and move mad  
And even if I loved you I couldn't trust you like a new cat  
You better put respect on my name, just know I'm due that
