Pouya

MTM, hit em with the heat!  
Mula!

Bitch, I'm spittin' side to side  
Turn this shit to genocide  
Draco like it's Soulja Boy  
Shootin' like a Polaroid  
Bulletproof shower cap  
For this Super Soaker toy  
Walkin' on the water, nigga  
Call me young Jehovah, boy  
I think you next up, prolly get yo head bust  
I think you next up, prolly get yo head bust  
Got my twin shorty and  
Her and her friends snortin' dick  
Needle in your arm, bitch, like a young nigga said

(Godzilla!)

My cauldron bubbles be gone  
With knives as big as King Kong  
I walk around like I am holy but the gates want me gone  
A phone no signal, can call  
A gun nobody can draw  
I wanna sleep, but rest is where the Reaper sees all  
Okay, now icepick inside you, hit organs and vitals  
I take it out then go to school, continue the cycle  
The blood flow like geysers  
Fall down to the fire, yuh  
I take it out then go to work, continue the cycle (Godzilla!)

Zilla got the SK and Mula got the AK  
And Baby Bone creeping about the cut with the grenade launcher  
All of these rappers jump on my dick  
Like they wanna get tickets for dinner  
And you faggots ain't ready for what we deliver  
Pull up with the trigger, then leave you for dead  
Demons surround me, then wanna leave my head  
Fuckin' these bitches, gettin' left on read  
Suicidal, never really wanna leave my bed  
I just want to swallow lead  
I'm thinkin' about the end today  
I wanna see Peep and X today  
I wanna grow wings and horns and die  
And ride the horse and fly away, yuh

Yeah, bitch, it's Slickback Silverback coming through to let you know  
City Morgue and Baby Bone coming through with a Fat Nick to fuck yo  
ass with, bitch!
