"Watch your back because they attack from every angle"

Watch your back because they attack from every angle

I go for the ankles
Cause' they are really not my level
Pushin' the pedal
Got my honor without no medals
No time to settle down forget it
Money got to get it
Pussy got to wet it
Talkin' shit we got to get em'
Until they start forgettin' life
What was you sayin' before?
You startin' to sound like a ho
She love it when I'm flippin the flow
So I'm at do it some more
Give me a minute til I'm finished
I ain't fuckin you for hours
Bitch you trippin'
Baby bone most smallest big pimpin
Fuckin' around with me
We have everybody missin'
Well I'm just hopin' that you are smart enough to listen
So pay attention

If they're your homies then you keep em by yo side
Keep em by yo side
Grab yo 9 and keep em by yo side
Keep em by yo side
Keep yo bitch on the side
Keep her on the side
Right yo side
Right yo side
If they're your homies then you keep em by yo side
Keep em by yo side
Right yo side
Right yo side

YUH

Things are kinda lookin' up but I'm still feelin down
The ones who fuckin doubted thus wish they can see us now
The ones who fuckin doubted thus they wish could be us now
But I'm just getting started
But I already see this shit now
I had the vision and I'm tryin' to make it happen
Always workin' on the new shit
Don't remember all the passion
I'm thinkin' about the passion
Movin' on to the next chapter
So I'm turnin' the page
Startin' fresh another day and I'm
Movin' off of this stage in my life
If not id be payin' the price
Drama, luck, and rollin' the dice
But I listen up and took the advice

From the people supportin' me at the time
But you got to be careful cause we already drove off our minds
Then I really got your back
That's what just started numba time
But the ones who do got you then keep em' by yo side
Then I really got you, that's what just started numba time
But the ones who do got you then keep em' by yo side
Keep em' by yo side
When they comin' for the ride
Then they got the grindin' system gone both feet slowly on the rise
So if we make it were we are going and we start to shine
I'd say we finally made it home you know when I arrive
When I arrive I'm goin' to make myself at home
But I'm not going to get too fuckin comfortable cause you could quickly go
And as fast as you came up
Someone felt and push it up
Cause you feed this and dissemble
Man you got to keep it humble
YUH

Doin' it for my homies watch your part that pussy from
She know a lot of people but she lonely
Fuck it I told her shake it like the shack
Move forward, jump around, double back
Baby bone I'm known to be your man
But baby girl ain't shit roll with that
I got to keep you on the side
YUH
Keep you on the side
