

Dying Slowly

Pouya

OG, everybody know me
Count money with my homies, don't need nobody to float me
Sippin' on the OE, I know I'm dying slowly
So I just copped a Rollie to slit my wrist and OD, to slit my-,
slit my-
OG, everybody know me
Count money with my homies, don't need nobody to float me
Sippin' on the OE, I know I'm dying slowly
So I just copped a Rollie to slit my wrist and OD, to slit my w
rist and OD, O-OD, O-O-

Ten years in the game, I seen rappers come and go
A couple of murders, overdoses, suicidals seem to slow
Sleepin' on the couch, it's roaches crawlin' all around me
Got a bounty on my head, you know where to find me
Take me back in time, I got some things I gotta say to the ones
no longer in my life
One more conversation, help me sleep at night
I'm stuck with deathbed text messages, visions that burn throug
h my skull
Wishin' I could see you one mroe time before my time to go

OG, everybody know me
Count money with my homies, don't need nobody to float me
Sippin' on the OE, I know I'm dying slowly
So I just copped a Rollie to slit my wrist and OD, to slit my w
rist and OD, O-OD, O-O-

I set the bar so high, I'll die before I reach my prime
But if my words could live forever, they'd [?] my time
This bread get me out my bed but not to Utopia
This beds keep me a level-headed [?]
I play, I play, I see what you bitches said about me
I don't gotta take advantage of nobody, yeah
Bitch, I'm a legend in my city, got 'em shakin' when they see m
e
I'm on dubs in that 'Lac, I show love and they show back, yuh

OG, everybody know me
Count money with my homies, don't need nobody to float me
Sippin' on the OE, I know I'm dying slowly
So I just copped a Rollie to slit my wrist and OD, O-OD, O-O-
