

Florida Thang

Pouya

Back then you was holdin' my gun
These days you the one I gotta run away from
You a heartbreaker, my lil' Florida thang
Got me hangin' out the window just yellin' your name, yuh
When I see you imma ride right by
But when I need you imma bang your line cause
I don't wanna be alone everybody needs somebody when they get alone (yuh)

Back then you was holdin' my gun
These days you the one I gotta run away from
You a heartbreaker, my lil Florida thang
Got me hangin' out the window just yellin' your name, yuh
When I see you imma ride right by
But when I need you imma bang your line cause
I don't wanna be alone everybody needs somebody when they get alone (yuh)

I can never hold my tongue
Let 'em know where I come from
She drop neck for a check and a pay stub
I knew she was about the money from the day one
But I ain't never seen a thang on a thang like that, yuh
Fuck her once and wanna get it right back next day
From the start you was playin' with my heart but I let you
I love the attention, yuh

Fake smiles and ulterior motives
I heard it through the grapevine you was faking the moaning
The moment you saw the money you knew your future was coming
When I was cumming, I thought it was real
We went from nothing to nothing
You made me sick to my stomach cussin' and fussin' and duckin' my phone calls
I was tryna to get in yo' draws, baby, you was tryna get through the walls
Where the stash at? Where your love really at? Yuh
Baby, I know that you played me
Lately, I'm still feeling like you're made for me
Save me, baby, don't let me go down this cold ass road alone, yuh, yuh
You don't wanna take me back now
Then take the bullets in my back out
Cause, baby, you were made for me, you're the only one that's saving me, yuh
, yuh

Back then you was holdin' my gun
These days you the one I gotta run away from
You a heartbreaker, my lil Florida thang
Got me hangin' out the window just yellin' your name, yuh
When I see you imma ride right by
But when I need you imma bang your line cause
I don't wanna be alone everybody needs somebody when they get alone (yuh)
