

Leave Me Alone

Pouya

Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone
Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone (Ayy, yuh)

Another soul ascended, funeral attendance
Growin' as I go through walks of life and I don't get the message
I feel I'm next in line, not to sound too morbid
But I feel the reaper's aura orbit around my body
Suckin' up all my serotonin
I run away but I can't escape the grasp of reality
Suicides and casualties multiplyin' quite rapidly
I feel like somebody is after me, yuh

Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone
Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone (Ayy, yuh, ayy)

I don't understand nobody
Keep these fuckboys from around me
I feel like my world is drownin'
Somehow managed to stay grounded
I think that I need somebody
To hug and hold and stay right by me
But I feel like I'm set on fire
I'm walkin' on thin ice and wires

Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone
Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone (Yuh, ayy)

(Life keeps movin' on even when you're gone)
I don't understand nobody
(Give a fuck about you, don't wanna hear your song)
Keep these fuckboys from around me
(I think I'm goin' home and turnin' off my phone)
I feel like my world is drownin'
(I wanna be alone, I wanna be alone)
Somehow managed to stand 'round and
(Life keeps movin' on even when you're gone)
I think that I need somebody
(Give a fuck about you, don't wanna hear your song)
To hug and hold and stay right by me

(I think I'm goin' home and turnin' off my phone)
But I feel like I'm set on fire
(I wanna be alone, I wanna be alone)
I'm walkin' on thin ice and wires

Life keeps movin' on even when you're gone
Give a fuck about you, don't wanna hear your song
I think I'm goin' home and turnin' off my phone
I wanna be alone, I wanna be alone
