

# Like Them

Pouya

Yuh!

I worry about you dog  
You've been acting kinda funny  
And I wouldn't be surprised  
If you spend your money  
On that fucking stuff  
I'm talking about the drugs  
The ones that fuck you up  
And you know they fucked you up  
And I try to pick you up  
Can't front, we did some stupid stuff  
At the time we scooped the bitches up  
To take shit and we left them in the cut  
We used to clown on them lames  
But I don't feel the same  
The way you look inside my eyes  
I could tell that you've changed

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then  
You said you was never gon' be like them

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then  
You said you was never gon' be like them

Get your money, fuck them haters  
That is what you told me  
See me coming up  
You hating cause my team is soaring  
Your life is boring  
See me touring and my bitches foreign  
Okay I know that I said we was gonna be straight in the morning  
It's gon' take some time  
Yeah it's gon' take some time  
But soon enough  
If you keep working then we'll gon' be fine  
Chilling, chilling  
Maybe sitting on a couple of dimes  
Chilling, chilling  
Maybe sipping on some fucking wines

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then

You said you was never gon' be like them

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then  
You said you was never gon' be like them

You ain't gonna slow me  
Even though you owe me  
For all of the shit I've done  
For my closest homie  
We was living like bums  
And we had a little fun  
We did what we did cause we had to get on  
But I'm still in the booth working on these songs  
With my dogs  
I'm always with my dogs  
I swear to God we gon' be on  
Cause everyone been working hard  
I'm with my dogs  
Bitch I'm always with my dogs  
I swear to God we gon' be on  
Cause everyone been working hard

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then  
You said you was never gon' be like them

Cause you look like them  
And you act like them  
Talk like them  
And you walk like them  
So you walk like them  
Take it way back then  
You said you was never gon' be like them
