Pouya

I promise I'm a leave you for another lady
A finer bitch, a fatter ass
And a nicer Mercedes
Then I'm a give that bitch the boot, the punt to cunt
Get out my face, regardless of what you say
My kids going through your digestive system
Sitting right next to your Yoplait
Can't wait to see the look on yo face
When I tell you we gon have to part ways
Pussy tight like hallways
These old rappers mad as hell because the youth is doing well
We taking over, getting exposure
Whipping Rovers, ain't no pussies in my Range go ahead approach us
YUH
Baby girl what you gon do with that?
I'm tryna super slow-mo dance butt naked with your lookin ass
Show me why I should be grateful
I wanna know, were they faithful when they made you
Cause you know them things hereditary
I'm the one you wanna be next to when you laying in your cemetery
Countless men on my head that really wanna kill me
I'm a smart stunna, dumb broads want to be near me
But I won't have no bitch in my circle that will not fulfill me
It's not that special, I'm a decent lover
But you will never find another like me
The same hoes denied me
The same hoes that find me on instagram talking about
"Pouya baby when you gon be by me?"
Like Zelda she want to Link up
Dick in your mouth the best cure for the hiccups
BITCH

Fucking bitches back to back then after that
Then we'll pass an ass, soon as I let her go
She gon [?]
Well now my heart is so cold and now we Eskimo brothers
Two things I'll never do is trust her and love her
She say my sex drive crazy, now we burning rubber
Okay that's safe sex on safe sex
So I won't get [?] I'm latex-ed, so I'm always using the latex
[?] all the estrogen, thinking "Damn, here we go again"
I met your broad when she tired of acting with you thespians
