Baby Bone, on my own, got these rappers on they toes
Asking me about my flows, like a magician I can't let you know
About my tricks, about my bitch, lately been on some savage shit
I know you mad cause I won't commit, baby girl don't trip just bounce on this dick!
STUNNA! Always rollin' with a hunnid, dudes by my side and they ready to die, bitch!
I do it for me, and all of my God help my family first, and then it's I
I gotta get mine, until it's my time, to rest in my grave, I'm not of that guy, I just don't behave
I don't like what they say so I disobey
Hit up 2phonez shawty like what's the play? He said let's get it, I said let's go!, (let's go!)
