

## Think It Over

Powderfinger

Nothing can be said  
Has a fight or war raging in your head?  
Nothing to recommend  
Ever gonna see If I'm the other man  
You can change it all around  
But the secrets are profound

Nobody will be saved  
You intend to take it with you to your grave  
Nobody will be turned  
From underneath the bridges you already burned

You can change it all around  
But the secrets are profound  
You can change it all around

This is only the beginning for you  
Take some time to think it over running too  
This could only end in trouble for you  
Take some time to think it over

Nothing can be said  
Has a fight or war raging in your head?  
Nothing to recommend  
Ever gonna see If I'm the other man  
You can change it all around  
In the sleepy little town  
You can change it all around
