

## We Should Be Together Now

Powderfinger

What are you looking for this time around  
Might need something to bring you to ground  
Everything turning me inside and out  
What are you looking for this time around

It's coming in and over  
It's waiting at your shoulder

You can see we should be together now  
Wait for me I'm pulling it together now

What are you looking for this time around  
Just keep telling what you have found  
All of this turning me upside and down  
What are you looking for this time around
