

## Crucifixion

### Power Trip

Territorial pissing contest, it sickens my nerves  
Atrophy of morality, the people left to bleed  
A foregone conclusion, the lock before the key  
Raised on ideology and imperial democracy

I don't care what you think you know  
Go and leave it on your tombstone

Altering the conscious, you can see what fits  
Making carnage of culture for your own benefit  
Your purity is make believe, delusion spreading like a weed  
Your logical fallacy is rational savagery

Crucifixion  
Mental devastation  
A spiritual mockery  
Pure American hypocrisy

Go and leave it on your tombstone

Altering your conscience, you can see what sticks  
Indoctrinating violence for your own benefit  
Corrupting everything you see, delusions spreading like a weed  
Your thirst for totality is rational savagery
