

## When Things Go Wrong

Power Trip

You can turn around and walk away  
Or you can stand and face another day  
Giving up all hope is for the weak  
Stand up and be heard when you speak

Things have been so hard for so damn long  
You sometimes think you'll never see the dawn  
But reach down deep inside and carry on  
And show them all your fuckin will is strong  
When things go wrong

Something's always messing up  
It puts you on the ground  
Hit me with the worst you've got  
But I'll still be around

...
