

Modern World

Powerman 5000

We do things that you think are impossible
We make moves that are clearly unstoppable
The old ways are now dead and gone
Make room, back off or jump on

We like living in the modern world
We like living in the modern world
With our laser guns and electric girls
We like living in the modern world

Well you're flesh and I'm made of steel
Factory built and factory sealed
All this stuff has made me so cold
But I'll never die, I'll never grow old

We like living in the modern world
We like living in the modern world
With our laser guns and electric girls
We like living in the modern world
