

# Closer

Powers

I caught a moment  
And it caught me  
Floating together, under the trees  
We were sippin' on moonlight  
Drinking champagne  
A couple freaks in the purple rain

Some mistakes are worth making  
Sometimes the time is worth wasting  
Some heartbreaks are worth braving  
I know, you know, you know

I just wanna get closer  
Closer to your body than somebody else  
I just wanna get closer  
Closer to your body than nobody else

Four in the morning  
She wants to dance  
Twirling the nighttime in her hands  
We've got candy and kisses  
Keeping us high  
Until we make it to paradise, sing

Some mistakes are worth making  
Sometimes the time is worth wasting  
Some heartbreaks are worth braving  
I know, you know, you know

I just wanna get closer  
Closer to your body than somebody else  
I just wanna get closer  
Closer to your body than nobody else  
I just wanna get closer

The road to nowhere  
Foot on the gas  
The sun is watching  
Having a laugh  
So won't you hold me like the sky holds blue  
And I'll keep singing this song for you

I just wanna get closer (closer)  
Closer to your body than somebody else  
I just wanna get closer (closer)  
Closer to your body than nobody else  
I just wanna get closer
