

Dance

Powers

I think it's very important, no matter who you are, is to enjoy life,
just dance

Body snatchers and karma catchers
They pitter-patter through the night
Money-loving, a dime a dozen
But hey now, all we want to do is dance

Payphone preachers and twisted creatures
On TV clawing out your eyes
Candy-stealing, vampire-dealing
But hey now, all we want to do is dance

Yeah, there's a riot in the ball pit
The president is on a spaceship
Cause Mother Nature got a facelift
And all we want to do is dance
All we want to do is dance
(All we want to do is dance)

Dodging bullets, God-fearing mullets
Afraid of changing in the tide
Singing choir; we're too close to the fire
But hey now, all we want to do is dance

Yeah, there's a riot in the ball pit
The president is on a spaceship
Cause Mother Nature got a facelift
And all we want to do is dance
All we want to do is dance
(All we want to do is dance)
(All we want to do is dance)

Hurry, baby
Through the fire
While it's burning
Higher, higher

(Hurry, baby) Yeah, there's a riot in the ball pit
(Through the fire) The president is on a spaceship
(While it's burning) Cause Mother Nature got a facelift
(Yeah) And all we want to do is dance

(All we want to do is dance)
All we want to do is dance
All we want to do is dance
And all we want to do is dance
