

# Man On The Moon

**Powers**

Oh baby, I am just a man on the moon  
I keep spinnin' in circles around you  
'Cause I've been livin' where the black meets the blue  
And it's all I've ever known how to do

Every single day  
And every night I'm on my own  
All alone, yeah  
Nothin' ever changes  
Always wonderin' what's below  
Wherever I go

I've seen you before  
Yeah, I know your type  
Try to take 'em wrong and make 'em right, yeah  
If you're lookin' up  
Better hear me out  
'Cause nobody ever pulled me down  
So what now?

Oh baby, I am just a man on the moon  
I keep spinnin' in circles around you  
'Cause I've been livin' where the black meets the blue  
And it's all I've ever known how to do  
Just a man on the moon  
Man on the moon  
Man on the moon  
Man on the moon

Somethin' in the dark  
Sayin' I was born to be  
Wild and free, yeah  
Shoutin' at the stars  
And followin' wherever they lead  
But caught in between

I've seen you before  
Oh, I know your type  
Try to keep the day away from night, yeah  
If you're lookin' up  
Better hear me out  
'Cause nobody ever pulled me down  
So what now?

Oh baby, I am just a man on the moon  
I keep spinnin' in circles around you  
'Cause I've been livin' where the black meets the blue  
And it's all I've ever known how to do  
Just a man on the moon  
Man on the moon  
Man on the moon  
Man on the moon
