

# Touch The World

## Powers

Your brain is on strike like two times a night  
You got a real life, go and cop a feel  
If the feeling is right  
When they call out your name, no shame, this is future  
Forget fame on the computer, this is your paradise

Go, go up to the sky  
You're a superman, man, and you're super fly  
Go, go up to the sky  
You're a superman, man, and you're super fly  
Hey, we're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
We're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
All night  
All night  
All night  
We're gonna touch the world

Quiero tocar el mundo  
I assume that you know what I do  
Do what I say when it comes out my mouth to the floor  
You hold it down underground, then feel us bounce since we bring  
All the madness and love to this house

Go, go up to the sky  
You're a superman, man, and you're super fly  
Go, go up to the sky  
You're a superman, man, you were born alive  
Hey, we're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
We're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
All night  
All night  
All night  
We're gonna touch the world

Go, go up to the sky  
You're a superman, man, and you're super fly  
Go, go up to the sky  
You're a superman, man, you were born alive  
Go, go up to the sky  
You're a superman, man, and you're super fly  
Go, go up to the sky  
You're a superman, man, you were born alive  
Hey, we're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
We're gonna touch the world, sing it  
Hey, we're gonna touch the world all night  
All night  
All night  
All night  
We're gonna touch the world
