

Bless 'em With the Blade

Powerwolf

Tear up The Bible, sacral survival
Heaven was betrayed, bless 'em with the blade
Cursed on arrival, savage and primal
Sinners and the maid, bless 'em with the blade

Their cries for mercy came too late

Bless 'em with the blade, with the blade
We attack without a warning
Bless 'em with the blade, with the blade
With no rest, we die for glory, God and fate
This time, we bless 'em with the blade

Break up the silence, wake up the violence
Ready for the raid, bless 'em with the blade
Fire the pyros, spread like a virus
End of all debate, bless 'em with the blade

Before the night, they better have prayed

Bless 'em with the blade, with the blade
We attack without a warning
Bless 'em with the blade, with the blade
With no rest, we die for glory, God and fate

Hyperventilate
Bless 'em with the blade
Fight the renegade
For the sacred order
Excommunicate
Bless 'em with the blade
Whip and flagellate
At the heaven's border

Wake on the wild side, break out of twilight
Pious and afraid, bless 'em with the blade
Ready for high life, dance on the sharp knife
Down the masquerade, bless 'em with the blade

Before the night, they better pray

Bless 'em with the blade, with the blade
We attack without a warning
Bless 'em with the blade, with the blade
With no rest, we die for glory, God and fate
This time, we bless 'em with the blade
