

# Dead Boys Don't Cry

Powerwolf

As proud as we're dead, the werewolves are back  
Countdown the strike and prepare for attack  
Pray when we take your life on this side  
And you know soon you'll be dying  
Cold are your veins, and when you deny  
Dark is the night and alone you will die  
Break all the chains and wait for the time  
When you return with the night  
Dead boys don't cry  
No wonder why  
You'll see them ride the midnight sky  
Dead boys don't cry  
For they can't die  
You'll see them light the grave goodbye  
Dead boys don't cry  
When we come near don't hide in your bed  
One night in hell and you wake up undead  
Dead when the day, alive in the night  
Gone with the morning horizon  
Don't you dare say, the damned you adore  
When you decide you can't take any more  
Phantoms we are, and lonesome we ride  
Into the dark of the night  
Dead boys don't cry  
No wonder why  
You'll see them ride the midnight sky  
Dead boys don't cry  
For they can't die  
You'll see them light the grave goodbye  
Dead boys  
Don't cry  
Dead boys  
Don't cry  
Dead boys  
Don't cry  
Dead boys  
Don't cry  
Dead boys  
Don't cry  
Dead boys don't cry
