

# Midnight Madonna

Powerwolf

In the final night bring sundown forever  
In the darkest time we follow the trail of this game  
In the fullmoon light the godless endeavor  
Stand pale and lunar

On a dead end sky so restless but ever  
Giving up the fight, we bring back the blood in your name  
And again tonight  
Let out a beast you can't tame

Come raise your hands and fight  
Get alive and wake your might  
Midnight Madonna come  
Get alive and break the light  
Midnight Madonna

In the primal dawn, bring blood from the living  
On the sabbath morn, we strike back and leave no farewell  
And a foreign might, held strong by the father's hand  
Sanguine order

On a sabbath night, so faithless but ever  
Living up defied, we bring back the saints of despair  
And before the dawn  
Sacred and borne on the air

Come raise your hands and fight  
Get alive and wake your might  
Midnight Madonna come  
Get alive and break the light  
Midnight Madonna

Come raise your hands and fight  
Get alive and wake your might  
Midnight Madonna come  
Get alive and break the light  
Midnight Madonna
