

# Sacramental Sister

Powerwolf

Bow down my sister, you've taken the veil  
locked up desire and buried your grail  
Christ in your heart and the poison in mind  
merciful father bring light to the blind  
Carry the cross under sacred command  
when down your body the priars descend

Sacramental sister, in heaven or hell  
when the night is falling, no moral can tell  
Sacramental sister, to god you are sworn  
when desire are calling, the Bible is torn

Sacramental sister  
in the darkest night  
Sacramental sister  
in the act we saw you alive  
Sacramental sister  
do the morning star  
Sacramental sister  
let him take you far  
to the light  
Sacramental sister!

Inside the order and out of control  
corpus for sin and to heaven the soul  
fallen for sin by the breaking of bread  
lamb on the altar and werewolf in bed

Sacramental sister, in heaven or hell  
when the night is falling, no moral can tell  
Sacramental sister, impure to the bone  
dedicate your body to god all alone

Sacramental sister  
in the darkest night  
Sacramental sister  
in the act we saw you alive  
Sacramental sister  
do the morning star  
Sacramental sister  
let him take you far  
to the light  
Sacramental sister!

Sacramental sister  
in the darkest night  
Sacramental sister  
in the act we saw you alive  
Sacramental sister  
you were led astray  
Sacramental sister  
in the light of dawn  
you will pray  
Sacramental sister!
