# Varcolac

**Powerwolf**

Tormentum
Requiem
Bestia et regnatoribus

Varcolac by beginning of the night stand up
Forever, Varcolac, for the sacrament of fight erupt
And as army we bring fire, in the night we bring back fire

Forever, Varcolac, hold the banner of the night at dusk
Together Varcolac, by the sacred lunar light were struck
And together spitting fire, in black night we bring back fire

Come to live, oh master of the werewolves
Get up high for the glory of the moon
Brace our hands to sanctify the wildlife
Your curse and your doom

Varcolac, in the dark you cannot break or stop
Forever Varcolac, born to rise upon the heavens top
And together we bring fire, in the night we bring back fire

Forever Varcolac, by the mighty fang and claw you walk
Together, Varcolac, strike the devil and we raise the fog
And as army we bring fire, in black night we bring back fire

Come to live, oh, master of the werewolves
Get up high for the glory of the moon
Brace our hands to sanctify the wildlife
Your curse and your doom

His army loyal 'ever, Varcolac
His army loyal 'ever, Varcolac
His army loyal 'ever more

Varcolac 'gainst the seven of the plagues stand up
Together Varcolac, stand the battle like a maniac
And together spitting fire, in black night we bring back fire

Come to live, oh, master of the werewolves
Get up high for the glory of the moon
Brace our hands to sanctify the wildlife
Your curse and your doom
