

Meet me on seventh street  
Just like we were 17 again  
Happiest I've ever been  
It's so pathetic that you left  
You were my everything  
Why did your parents have to fight?  
Meet me on seventh street  
The only girl that I have ever liked

Meet me on seventh street  
Just like we were 17 again  
Happiest I've ever been  
Standing beside you on the deck  
All of these college parties with stupid people only makes me sad  
Times like these makes me want the times we used to have  
Makes me want the times we used to have  
I miss all those times

Tomorrow two years ago I still remember  
And the day that your picture changed from ours together  
My mother said to never lead a heart astray  
The last time that we said I love you was the day you moved away

I'm back on seventh street  
Underneath streetlights where we would kiss  
Who thought that hearts could break?  
I never knew this as a kid  
I'd give you anything  
Why did your parents split apart?  
Meet me on seventh street  
The only place where I could reach the stars

Meet me on seventh street  
Just like we were seventeen again  
Happiest I've ever been  
Standing beside you on the deck  
All of these college parties  
With stupid people  
Only makes me sad  
Times like these makes me want the times we used to have

Run away  
Every day I hate without you  
The drive is long, but I hope to see you soon  
I'm still in love even though you've got new friends  
One day we'll be on seventh street falling in love again
