

Alienated

Powfu

I've been
Stranded on the m-

I've been
Stranded on the moon
Surviving
Trying not to fall apart
Running out of breath
Slowly dying
Wishing on a shooting star
Will you come and rescue me
Save me from this dark place
Promise it'll be worth your time
Take a trip through outer space

I don't know where you've been
I don't know where I'm at
I get lost too often
Wander off of the map
Haven't seen my home
Spent a year on the road
Take off running when I don't got answers

I can't see out this
Fall asleep underneath the rain again
I can't reach out when
I still see you everywhere

I've been
Stranded on the moon
Surviving
Trying not to fall apart
Running out of breath
Slowly dying
Wishing on a shooting star

I walk into the room and they all go quiet
Momma says make friends, but I'm tired of trying
I'd rather keep my distance to keep myself from pain
Known them since first grade, but they don't know my name

Always been the outcast, sitting in the corner
Known as the weird kid, the quieter little loner
No one ever asks how my day is
But it's fine, I shouldn't be complaining

I've been
Stranded on the moon
Surviving
Trying not to fall apart
Running out of breath
Slowly dying
Wishing on a shooting star
Will you come and rescue me
Save me from this dark place
Promise it'll be worth your time
Take a trip through outer space
