

# Bad Wifi

Powfu

I hate you, you hate me, nothin' changed lately  
Hit me with some dumb shit, you know will drive me crazy  
Sadness, blackness, permanently night-time  
Listen why my lyrics so depressin' when I write rhymes  
You say we still friends, but I better five-nine  
Used to cheer me on now I don't see you on the sideline  
I say we take some time off and get our minds right  
Losin' my connection like we on some bad Wi-Fi

We started off so dang good (so good)  
But somethin' came and broke us up (broke us up)  
It all happened way too fast (too fast)  
Yeah, it sucks that we hit bad luck (hit it, hit it)  
I was hopin' we could make this work (make it work)  
Now my friends are tellin' me to set free (set free)  
The stories that we made were good (so good)  
But we'll never have a happy ending

I don't wanna lose you, no

Hop in the wake and then step on the gas  
Headin' out, don't wanna be in the past  
Makin' decisions I know that are bad  
Don't know what I'm feelin', don't know if I'm sad  
I'm needin' somebody, just lend me a hand  
'Cause right now it feels like I'm sinkin' in sand  
Try to forget about all that we had  
'Cause after I leave, I won't ever come back  
I don't wanna come back, forget it, forget it  
But I love you still, I admit it, admit it  
I hate this shit, I don't wanna quit  
The way I felt with you, yeah, I'm missin' it  
My mind's playin' games, can't think straight  
I see two paths, don't know which way

I'm headed straight for the morgue, would you come follow my corpse?  
I play the pressure for sport but lost to gain the remorse  
These days everything just seems so fake  
I feel the flesh of Satan tryna come and take our faith  
I wish you'd wake up, instead of worryin' bout all of your make-up  
It'll take us, a lot of time, but I don't wanna break-up  
The love we once had was somethin' Sci-Fi  
Now the time flied, our feelin's gettin' mixed like tie-dye  
It's bad Wi-Fi

We started off so dang good (so good)  
But somethin' came and broke us up (broke it up)  
It all happened way too fast (too fast)  
Yeah, it sucks that we hit bad luck (hit it, yeah)  
I was hopin' we could make this work (make it work)  
Now my friends are tellin' me to set free (set free)  
The stories that we made were good (so good)  
But we'll never have a happy ending (never)

We started off so dang good (so good)

Here's the truth, I don't love you anymore  
So now you can hate me, goodbye
