

Blue Waves

Powfu

Shopping bags under eyes, lookin super stoned
Watching clouds floating by where I wanna roam
Walking sideways down the street on my way home
Headphone over ears, I'm out of zone

You give me a high
The ones I can't afford
Your love is something else
All that I want is more
You give me a high
The ones I can't afford
All that I want is more

Don't got a lot but that's fine with me
True love like we living Disney
You calm me no panic
Your love burns like acid
I want you there while I'm living my dream
Never thought a girl like you would like me
I can't stop these habits
Blue waves like magic

I ran out of options
Don't know what to do
Boredom coming quick
And your off work at two
Sit down in my room
And record a couple bars
And talk about the girls that broke my heart
I could dance in the dark
When I hear you sing
Or sleep in the light
When I feel your warmth
I could overdose on your love itself
If you got me don't need nothing else

Don't got a lot but that's fine with me
True love like we living Disney
You calm me no panic
Your love burns like acid
I want you there while I'm living my dream
Never thought a girl like you would like me
I can't stop these habits
Blue waves like magic
Blue waves like magic

Finna be happy I've been down too long
Everybody hyped when I write a new song
If you left me I would never move on
Don't stay still gotta get a move on
I would stay right here stay still no chill
Heart beating heavy like I ran up a hill
I'ma go for the kill
I'ma go for your heart
Whatever is mine
Consider it ours
