

BLUE

Powfu

My blue
You remind me of a song I always knew
A melody familiar and true (and true)
I know you like I know the color blue
(Oh-oh, oh)

And when I fall asleep at night, I'm laying next to you

My blue...
I'll never let you go
My blue...
I'll never let you go

Sky blue in my navy suit
Wish that we could talk, but it won't be soon
My bad, I can't make it back
Staying up at night like a lost raccoon
(I wish that I could run) back to your caffeine
'Cause life inside this boat ain't been relaxing
(Soon we'll see the sun) so don't go missing
'Cause everyday, a step along the path into our kitchen

It could rain for a month, I could be sent up above

You said I'm blue...
I'll never let you go
My blue...
I'll never let you go

(My blue
You remind me of a song I always knew)
