

cinammon hearts

Powfu

Ayy

Drugs don't make me feel like you do
Hug me tight, pillow fights watching YouTube
Life wasn't bright 'til you moved closer
Fall more in love each day we get older (Ayy)

Cinema lights, cinnamon hearts
Seeing my future in your arms
Staying up late, sit in my car
Seeing our path along the stars
Cinema lights, cinnamon hearts
Seeing my future in your arms
Staying up late, sit in my car
Seeing our path along the stars

Ah, ah, ah-ah, ah, ah
Ah, ah, ah-ah, ah, ah
Ah, ah, ah-ah, ah, ah
Ah, ah, ah-ah, ah, ah

Ayy, yeah, yeah
Reset, reset me
Back to the start, no ending
Feel like we kids, keep texting
But I love every heart you send me
Ready or not, you already my thoughts
Saving these photos like penalty shots
Walking through clutter, you made it all simple
Incredible Hulk couldn't stop this missile
Aim for the firmament, let's make it permanent
Hand you a map, anywhere you can circle it (Yeah)
When you're not here, I'm unsteady
Bet he can't buy her clothes and say mean jokes and keep on posting
But nobody brought her roses like I do
And that's only for you
(Thank you)

Cinema lights, cinnamon hearts

Seeing our path along the stars
Cinema lights, cinnamon hearts
Seeing my future in your arms
Staying up late, sit in my car
Seeing our path along the stars
