

Take my hand and come inside
It's pouring rain, you're soaking
A cup of tea and change of clothes
I know life is miserable

It's OK just get some rest
I'll go bring you water
Messages and hours spent
Desiree my one and only friend

I'm 'a make breakfast in bed
Giving you the best day ever
Tell me anything that you need
I just want you to feel better

They don't know how to love
I guess it's in my blood
But you don't make it hard

Baby let your light shine
Shine on through
Let you take up my time
Time with you
Baby let your light glow
Let it glow
Kiss me with your eyes closed

Take my hand and come inside
It's pouring rain, you're soaking
A cup of tea and change of clothes
I know life is miserable

It's OK just get some rest
I'll go bring you water
Messages and hours spent
Desiree my one and only friend

I need you next to me
When you're not right here
Can't even fall asleep
Take me back to the start
Staring up at the stars
Need to lay in your arms
Or I might fall apart

Baby kiss me with your eyes closed
I'm a mess baby I know
Just kiss me with blinds closed
I could do this forever
Won't ever let you go
