

# Don't Fall Asleep Yet

Powfu

Don't fall asleep yet  
I'm wide awake still  
I wonder if you think about me when you lay still  
Don't fall asleep yet  
Promise me you'll stay here  
Are my pictures on your wall still like last year?

Don't fall asleep yet  
I'm wide awake still  
I wonder if you think about me when you lay still  
It's been a long time  
Miss you around me  
When I dream about you are you dreaming 'bout me?

Don't fall asleep  
I'm wide awake  
I hope that we  
Have brighter days  
You still have my heart  
So don't let it break  
I want you all mine forever  
I'll put my heart on a projector  
I wish we settled all the struggles we got into  
The best part of my life was with you

Don't fall asleep yet  
I'm wide awake still  
I wonder if you think about me when you lay still  
It's been a long time  
Miss you around me  
When I dream about you are you dreaming 'bout me?

Think about you too much  
Tryna fall asleep  
But my eyes won't shut  
Said you need a break  
And that's OK  
But when you feel alone  
Always got my place  
Life throws curves  
Sorry for your loss  
Praying for your peace  
When the night feels long  
Writing songs for you with my guitar  
Leave if you want but please don't go far

Don't fall asleep  
I'm wide awake  
Don't fall asleep  
I'm wide awake  
I hope that we  
Have brighter days  
You still have my heart  
So don't let it break
