

# Douchebags

Powfu

I was sitting at the bus stop  
Listening to punk rock  
When I saw your boyfriend walking my way  
He's always trynna start shit  
I'm always the target  
Why you gotta date the ones that I hate?

Why you gotta date that  
Got me falling face flat  
Every time you touch him  
I just wanna budge in  
Baby you're so perfect  
He's not even worth it  
Why you gotta date the ones that I hate

You're dating all the douchebags (the douchebags)  
You're dating all the douchebags  
The douchebags (yeah, yeah)  
The douchebags (ayy)  
The douchebags

Baby you my favorite  
That won't ever change a bit  
Every time I see you  
My thoughts start to take a trip

You had that sparkle in your eye  
Since we met back in grade 5  
You always used to wave at me  
Which took me by surprise

Now I never understood  
Why you always date the mean kids  
You have always been nice  
But your boyfriend's always teasing

Let me have a go  
Show you who I really am  
Your heart is half empty  
And I'll fill it to the brim  
Like

He doesn't even treat you good  
Tell me why you're standing by his side  
I don't understand what you see  
Everything is clear to me  
Yeah

The douchebags  
Yeah

I might dirtbag  
At least I'm not a douche  
I'm sorry for the names  
But you know it's kind of true  
Who you gonna date, ayy  
Who you gonna dump  
I promise it will work out  
If you make me the one

I might dirtbag  
At least I'm not a douche  
I'm sorry for the names  
But you know it's kind of true

The douchebags  
That I hate  
They're all losers
