

facing the giants

Powfu

Yeah, say goodbye to my demons and depression
No weapon formed against me
Lord, if you need a job done, you can send me
Blind, now I see
No more evil in my home
No more fear inside my heart 'cause I know who's on the throne
Float like I had a steamboat taken off of me
Take a new path, not a path full of apologies
Weep 'cause I've seen the sunrise, didn't use to
Pray for my brothers in the dark, that they choose you
(Yeah)

Safe under Your sky
I'll keep my eyes on You
Take me to new heights
Wanna walk and not grow weary
I dedicate my years to the One, to the lamb, to the lion
Take away my fear
Like David when facing the giant

Liars, they're copying what Simon did
I ain't sliding, I'm chasing after righteousness
You can't buy it
Free to everyone who asks
Last will be first and the first will be last place
Life is unavoidable
Fast trains are not always enjoyable
Trust God and take on what's in front of you
Brush off when evil pulls a gun on you
Can't shoot no spear
(Yeah)

There's no fear in love
Tell me change my lyrics
Yeah, but God's work ain't done

Safe under Your sky
I'll keep my eyes on You
Take me to new heights
Wanna walk and not grow weary
I dedicate my years to the One, to the lamb, to the lion
Take away my fear
Like David when facing the giant
