

# Feel It All

Powfu

(Look what you did to me)  
(Look how you broke my heart)  
Yeah, I don't like you anymore

Dusk 'til dawn  
Avoiding eye contact  
If our eyes met  
All the feelings will flood back in  
Flood back again  
Flood back again

Dusk 'til dawn  
Avoiding love songs  
'Cause you stole my heart  
But my feelings haven't gone away  
I can feel it still  
I can feel it all

Don't look at me I'm fine  
Been through this a hundred times  
Just another break-up  
I'll face it  
Call it the finish line

Sometimes I feel like I am a failure  
But a smooth sea never made a skilled sailor  
And I'ma sail this ship don't need to map it  
Got so much faith I'll move a mountain while I'm at it

Light that I got gonna guide me  
Leaving the monster behind me  
Progress not perfection I don't care about the timing

Dusk till dawn  
I did a lot wrong  
Pushed you to the side  
Put my cool shades on  
But they look like shit  
Yeah I still look like shit

Dusk 'til dawn  
Ignoring all her texts  
I don't want her on my mind  
Doesn't matter what she said to me  
I don't really care  
I don't care at all

Look what you did to me  
Look at how you broke my heart  
How do you feel now  
I bet you feel good

Look what you did to me  
Look at how you broke my heart  
How do you feel now  
I bet you feel good

(Why'd you have to do this?)  
(Why'd you have to do this?)

I bet you feel good  
'Cause I don't feel good  
I bet your smiling  
While I'm crying  
You act evil perfectly

Dusk 'til dawn  
Avoiding eye contact  
If our eyes met  
All the feelings will flood back in  
Flood back again  
(Flood back again)

Dusk till dawn  
Ignoring all her texts  
I don't want her on my mind  
Doesn't matter what she said to me  
I don't really care  
I can feel it all
