

Hear My Thoughts

Powfu

I have received word of a strange invention
What it can do, will amaze science
And strike terror to a world

Aye, Yeah
Yeah, you always do annoying things
I kinda like it though, I fall in love with everything
Everything, every touch, every time I see that butt
Every time I feel you close, I just wanna pull you closer
Aye, losing you's my biggest fear
Wanna get that ring for you, but gotta wait like 20 years
Got some type of power, putting smiles up on everyone
Can't wait to go travel with you, do shit that we've never done, yeah

When I'm with you, we ain't even gotta talk
I'm so in love, you can read my thoughts
I'd drive an hour for a minute with you
Every little thing about you, I'm into
When I'm with you, we ain't even gotta talk
You so in love, you can hear my thoughts
I'd drive an hour for a minute with you
Every little thing about you, I'm into

Aye
I woke up with you wrapped up in my arms, I love the warmth
I'll protect you like a shield and a sword, I look towards
At our future, we've still got a lot left
I've been recording with my mic, while you study at your desk
You so cute when you read your book sittin' by the furnace
These people jealous of us and they only see the surface, yeah
Listen up, little buttercup, you the girl for me, don't pay attention
to the other ones
Sleepin' in, watchin' movies, eatin' food, it's way better with you
Yeah, havin' deep talks with a box of tissues, but that's no issue
These tears will bring us healin'
We prayin' for each other, it gets dark in certain seasons
Yeah

When I'm with you, we ain't even gotta talk
I'm so in love, you can read my thoughts
I'd drive an hour for a minute with you
Every little thing about you, I'm into

I'm into, come kiss me
All my dreams are coming true
It's cold out, come closer
I'll never be over you
