

hold me

Powfu

Said I want you to hold me
But when you do
I cannot help
But still feel lonely
Thought you wanted to know me

Check my phone
Never had love to show
And I got a place back home
Somewhere I can call my own
Maybe I just wanna be alone
I've been asleep so long
And they wanna say it's my fault
Shit, you better watch your tone

I've been chasing waterfalls
Bodies in my bedroom walls
"You used to like me?"
"Not at all"

Said I want you to hold me
But when you do
I cannot help
But still feel lonely
Thought you wanted to know me

Somewhere to go
Thought somewhat we friends
But now girl I know, this wave at its end
Refrain from the shit that I'm wanting to send
Burning our past

So do what you want to
Visit the south
Go hit up the parties
Forget 'bout your health

No, you see I'm right and call me back home
No matter what happens I'll still be alone

See all the birds they fly
See all the birds they fly
I'll stay at home this time

Said I want you to hold me
But when you do
I cannot help
But still feel lonely
Thought you wanted to know me

Said I want you to hold me
But when you do
I cannot help
But still feel lonely
Thought you wanted to know me
