

Everything I wasn't hoping
Now in motion
Why's it always feel like bad luck
Got me roped in
Everything was out of focus
Went unnoticed
Everything I wanna keep safe
Gets broken

Everything I wasn't hoping
Now in motion
Why's it always feel like bad luck
Got me roped in
Everything was out of focus
Went unnoticed
Everything I wanna keep safe
Gets broken

She got no reason to
Still I'm in love with you
I won't ever say one bad thing
Even though I hate what happened

She got no reason to
Still I'm in love with you
I won't ever say one bad thing
Even though I hate what happened

Everything I wasn't hoping
Now in motion
Why's it always feel like bad luck
Got me roped in
Everything was out of focus
Went unnoticed
Everything I wanna keep safe
Gets broken

I remember the days
We stayed out in the rain
I hate to think about it
Cause all that's left is pain

Oh weren't you the one
Who pulled me closer in
I didn't think I'd have to
Lose myself to find you

It's bad luck and I'm backed up
Cause you trashed us for a pass up
I hope that you know that
I still think about us
I still got that note
That you left on my couch
When you said you were leaving
I figured it out because

Everything I wasn't hoping

Now in motion
Why's it always feel like bad luck
Got me roped in
Everything was out of focus
Went unnoticed
Everything I wanna keep safe
Gets broken
