

lonely in the mountains

Powfu

Step into my room
Leave with bloody lips
Saying that she love me
But never really did

Maybe I should go
Walk over the mountains
Find a new home
Away from where the town is

I could spend a year alone and never miss a soul
I could try my hardest and I'll never reach my goals
I know that I'm weak
Need more love inside my heart
Didn't wanna change
But I think that today is a good time to start

Is a good time to start
Good time to start

Sunset dreams of the nights that I never knew
Heart feels warm when the trees only seem to bloom

Midnight laughter running all the way with you
Miss this place, but the town don't want me here

Where's my lunch money
Where's my gym clothes
I will never know
Where's a good girl
Who doesn't wear a mask
Where's a best friend
That's always got my back

I need time from the hills and the monsters
I feel like one day I'll have a daughter

Name her "Rose" with beauty like her mother
I'll wait for the day even thoughts bring me comfort

I could spend a year alone and never miss a soul
I could try my hardest and I'll never reach my goals
I know that I'm weak
Need more love inside my heart
Didn't wanna change
But I think that today is a good time to start

I need time
I need remedies lately
Clothes got holes
And I miss your pastries

Maybe if I come back when everyone is sleeping
Walk along the streets like we did on the weekends

Where's my lunch money
Where's my gym clothes

What's a good grade
I will never know
Where's a good girl
Who doesn't wear a mask
Where's a best friend
That's always got my back

I need time from the hills and the monsters
I feel like one day I'll have a daughter

Name her "Rose" with beauty like her mother
I'll wait for the day even thoughts bring me comfort

I could spend a year alone and never miss a soul
I could try my hardest and I'll never reach my goals
I know that I'm weak
Need more love inside my heart
Didn't wanna change
But I think that today is a good time to start
