Powfu

Yeah, you the best I ever met  
Way off my league  
It's weird how you're so perfect  
Like straight o' of a dream  
You got everything I like and we never really fight  
Except for when we wrestle in the middle of the night

Baby, baby, I'll be honest  
You got everything I'm wanting  
We ain't ever stressing, 'cause we're never having problems  
When I am alone, wishing you were in my view  
You happy, when I'm happy and I'm happy with you  
Like, oh, maybe it's just a dream  
But I don't wanna leave this  
I don't wanna leave you  
Like, oh, maybe I'm just asleep  
But I don't give a shit, man  
Living while I still can

Because love that we have isn't typical  
In a fairytale they would call this mystical  
Yeah, this love is unbelievable  
Yeah, this love nobody 's ever seen before  
Yeah, this love that we have isn't typical  
In a fairytale they would call this mystical  
Yeah, this love is unbelievable  
Yeah, this love nobody 's ever seen before

Yeah, uh  
Now, I've said this many times  
But how are you so gorgeous  
You can be my queen  
And I'll build you up a fortress, ya  
You're worth a fortune  
I'll do anything for you  
Even if it ain't important

Baby, baby, I'll be honest  
You got everything I'm wanting  
We ain't ever stressing, 'cause we're never having problems  
When I am alone, wishing you were in my view  
You happy, when I'm happy and I'm happy with you  
Like, oh, maybe it's just a dream  
But I don't wanna leave this  
I don't wanna leave you  
Like, oh, maybe I'm just asleep  
But I don't give a shit, man  
Living while I still can
