

RULE BREAKERS

Powfu

We're breaking all the rules when we have to
Come take a little bite, I won't be mad at you
This energy you're giving, girl, we can't lose
But things don't always look like they have to

(Take it, take [?]
I know you like these
Cannot, cannot force us
Pretty, I'll show you the shortcuts)

Skip to the action, don't know what'll happen
Helped save a cat, got accused of kidnapping
Why would I walk when the world's got secrets?
We don't get sidetracked by the little things
Eyes on the road, I gotta go fast
Time moving slow when I look in your eyes
Glad we left home, I don't wanna go back
Blaming us both, but they're making up lies

Yeah, they don't understand
We're running out of time
That's why we

We're breaking all the rules when we have to
Come take a little bite, I won't be mad at you
This energy you're giving, girl, we can't lose
But things don't always look like they have to

Oh, ah
Oh, ah
Oh, ah
Things don't always look like they have to

She whippin' cinnamon buns
The definition of what I wanna chase
No pace could be fast enough
She roll her eyes when I pull up to the ice rink
Can't keep quiet, too hot not to say nice things
I feel like ice cream, Oreo and mint
I heard that Garrett's dad owns a corner store on fifth
We ain't paying him a cent, he keeps cheating on his wife
I'll run in and grab a bucket, yell "I hope you hate your life"

They don't understand
We're running out of time
That's why we

We're breaking all the rules when we have to
Come take a little bite, I won't be mad at you
This energy you're giving, girl, we can't lose
But things don't always look like they have to
We're breaking all the rules when we have to
Come take a little bite, I won't be mad at you
This energy you're giving, girl, we can't lose
But things don't always look like they have to

I know you like these

Cannot, cannot force us
Pretty, I'll show you the shortcuts
