

Running Through The Rain

Powfu

I see you walkin' round with the cool kids
Achieved a new title, I'm still useless
Used to live across the street but you moved out
Everything we once did, I don't do now
Used to watch stars right beside me (beside me)
When I look out it reminds me
I don't know when we talk, but I hope it's soon (hope it's soon
)
I feel lost inside my room (lost inside my room)
(I feel lost inside my room)
(I feel lost inside my room)
(I feel lost inside my room)

I don't know what happened
Just woke up and there's buildings falling [?]

Thinking about you
I would sneak into your house through the side door
Thinking about us
Staying up with you together until our eyes soar
Thinking about you
The only girl I'd ever give my all for
Thinking about us
Running after you through the down pour
(Through the down pour)
Running after you through the down, through the down pour
Running after you through the down pour
